RECIPROCITY

In the last two years, more and more salesmen have complained of the pressure that has been put on them to deliver reciprocal business.

"If your company can't do business with us, then we can't do business with you," is the attitude, common among some of the largest corporations.

Sensible business men just naturally buy from companies who give them what they want, when they want it, at a proper price, and that is all they expect in return. Compulsory reciprocity is contrary to the spirit of sound business. It substitutes might for enterprise, and cheapness for quality, take-it-when-you-get-it for service.

If we would all sell on merit and buy on merit we could thereby shorten the period of recovery.—William Feather.

From "Bagology," August, 1934.

We have forgotten the idea of getting rich, and are now working to earn a comfortable living.

We are striving to give you what you want, when you want it and at a proper price.

In return for this service we are counting on you to help us maintain the prices quoted in this catalog, and to pay your bills promptly when due.

It is our firm belief that a fair measure of prosperity may be attained for you and for us, if we play the game in this way.

Don't forget that RETAIL PRICES should be at least 50% above WHOLESALE PRICES.

TO THE NURSERY TRADE.

We book all Orders with the understanding that same shall be Void should injury befall the stock from Flood, Drought, Fire, Frost or other causes beyond control.

We exercise the greatest care to keep our varieties pure and true to name, and hold ourselves in readiness at all times to replace, on proper proof, all stock that may prove otherwise, or refund the amount paid. A list of LINING OUT STOCK will be mailed to you later. In the meantime, if you are interested in this material, kindly let us know, and we will quote you.
